**PRELIMINARY
REPORTS**

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

This report presents a summary of the preliminary State housing unit counts previously published in the individual State reports of this series.

The preliminary figures shown will be superseded by the final counts to be presented in Advance Report Series HC(V1). The advance reports, which will be published a State at a time, have already been issued for several States and the entire series is scheduled to be published before the end of 1970. The final counts may differ from the preliminary figures for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

Note: With the issuance of this report, all 57 reports in the HC(P1) Series have been published.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 1,111,133 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 143,667, or 14.8 percent, from the 967,466 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 760,677 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 166,155, or 27.9 percent, from the 594,522 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

1970 CENSUS OF HOUSING

July 1970

U.S. DEPARTMENT OF COMMERCE/Bureau of the Census

HC(P1)-9

DELAWARE

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 180,904 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 37,179, or 21.7 percent, from the 143,725 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 1,737,423 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 234,275, or 15.6 percent, from the 1,503,148 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 1,054,728 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 129,156, or 14.0 percent, from the 925,572 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 1,274,294 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 155,023, or 13.9 percent, from the 1,119,271 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 172,869 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 71,246, or 70.1 percent, from the 101,623 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

HC(P1)-35

NORTH CAROLINA

PRELIMINARY REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 1,620,396 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 297,439, or 22.5 percent, from the 1,322,957 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 934,863 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 119,178, or 14.6 percent, from the 815,685 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 746,860 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 124,007, or 19.9 percent, from the 622,853 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 3,816,820 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 663,693, or 21.0 percent, from the 3,158,127 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 1,490,395 housing units in the State, according to a preliminary count of the returns of the 1970 census. This figure, which includes both occupied and vacant housing units, represents an increase of 321,482, or 27.5 percent, from the 1,168,913 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State and each incorporated place of 10,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series HC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

VIRGIN ISLANDS OF THE UNITED STATES

PRELIMINARY REPORTS

Housing Unit Counts for States

(This report is based on preliminary counts of housing units as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, there were 21,297 housing units in the Virgin Islands, according to a preliminary count of the returns of the 1970 census. This figure which includes both occupied and vacant housing units, represents an increase of 11,740, or 122.8 percent, from the 9,557 units enumerated in the 1960 census.

This report presents preliminary 1970 counts for the area, each island, and Charlotte Amalie city. These preliminary figures will be superseded by the final counts to be shown in Final Report Series HC(1)-A which will be issued next year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.
